## 🏠 Career & Job Prediction Based on Kundli

Let's look at the relevant houses for career:

- **10th House** : Career, profession

- **2nd House** : Wealth, status
- **6th House** : Service, job, competition
- **Jupiter** : Career guide
- **Saturn** : Hard work, discipline, delays

### Your 10th House:

The 10th house falls in **Aquarius** , ruled by **Saturn and Rahu** . Since Rahu is in the 10th, you may have unconventional or tech-related career opportunities — like IT, digital marketing, engineering, entrepreneurship, or social media.

Saturn in your **5th house** indicates that your career will likely come after some hard work, patience, and creative efforts. You might not get a job immediately, but when you do, it will be stable and long-lasting.

### Dasha/Bhukti (Planetary Periods):

As per your birth year (2005), you are currently in the **Mahadasha of Venus** , which lasts until **June 2028** . Venus is in your **Ascendant** , which is a strong position. This period supports education, creativity, relationships, and personal growth.

After June 2028, you'll enter the **Sun Mahadasha (till 2033)** — this is often a time of rising in career, gaining recognition, and taking leadership roles.

So, realistically, your **first job or meaningful career opportunity** could come between **late 2027 to early 2029** , depending on how well you utilize your current time for skill development and networking.

### Transits (Current Trends):

Right now (2025), Jupiter and Saturn are transiting through earth signs (Taurus and Capricorn), which are beneficial for your career. These transits support learning, planning, and laying a foundation for future success.

You may start getting **internships, part-time jobs, or training opportunities** within the next 1–2 years if you're proactive.

### ✓ Suggestions to Get a Job Faster

1. **Focus on Education/Skills** : Learn something practical — coding, digital marketing, design, or any field you're interested in.
2. **Use Internships** : Start with small internships to build experience.
3. **Network** : Build connections via LinkedIn, college events, or family contacts.
4. **Be Patient** : With Saturn in the 5th, success comes through consistent effort over time.
5. **Meditation & Mantras** : Chant **Om Shreem Shraum Shram Saraswatyai Namaha** (for knowledge) and **Om Shan Shanishcharaya Namaha** (for Saturn).

## Summary – When Will You Get a Job?

Phase	Timeframe	Possibility
First Job	2027–2029	High
Internship	2025–2026	Medium-High
Stable Job	After 2029	Very High
