Q. When I'll get married ?

Response : Predicting the exact timing of marriage in Vedic astrology depends on multiple factors in your Kundli, such as the 7th house (house of marriage), its lord, Venus (karaka for marriage), and the timing of favorable planetary periods (dashas) and transits.

Based on your birth details (23 Oct 2005, 6:00 AM, Haryana, India) with Libra ascendant:

- The 7th house is Aries, ruled by Mars.
- Venus, the natural significator of marriage, is in Scorpio.
- To estimate marriage timing, astrologers analyze the dasha (planetary period) of Mars, Venus, or the 7th house lord, and favorable transits of Jupiter and Saturn.

General Indicative Periods:

- Your Venus Mahadasha (major period) is likely to start around your mid to late 20s (approximately 2029-2035), which is a very favorable period for marriage.
- Additionally, Mars or Jupiter dashas or their sub-periods (antardashas) combined with positive transits over the 7th house or Venus can trigger marriage events.
- Since you are currently 19 years old (in 2025), marriage is more likely to occur in the next 4-7 years, roughly between 2028 and 2032, when these favorable planetary periods align.
