Application for 2025 Seasonal/Off-Cycle Internship – Global Investment Research – Tokyo, Japan

Respected Sir/Mam,

I am writing to express my interest in the Seasonal/Off-Cycle Internship in Global Investment Research at Goldman Sachs. With a year of experience as an AI Intern, I have developed a strong foundation in teamwork and collaboration, which I believe aligns well with the immersive and dynamic environment your internship offers.

During my previous role, I engaged in various projects that required innovative problem-solving skills and effective communication with team members. This experience has not only sharpened my analytical abilities but also nurtured my artistic approach to tackling challenges—allowing me to think outside the box while contributing meaningfully to group efforts.

I am particularly drawn to this internship because it promises comprehensive training and exposure to financial markets and research processes. The opportunity to work alongside experienced professionals resonates with my desire for continuous learning and professional development. I am eager to bring my creative perspective into meaningful projects that contribute positively to your team's objectives.

Goldman Sachs' commitment to fostering talent within its ranks is inspiring, and I would be honored to be part of such a prestigious firm where I can further develop my skills while contributing value through collaboration.

Thank you for considering my application. I look forward to the possibility of discussing how I can contribute as an intern at Goldman Sachs.

Sincerely,
Kapil
