1.Good structure , but less light on analysis.

2.Lacks detail in interpreting planetary combinations or house influences.

3.It doesn't go deep , like in Dasha logic.

ChatGPT Free :

1.Redirects you to the third party or plugins.

2.Solid baseline, but much less detailed than GPT Plus.

3.Leans more on external site links, not native knowledge.

Meta Llama :

1.Mostly gives **sun sign horoscopes** and **Western astrology** generalizations.

2.Not suitable for precise Vedic Kundli chatbots.
